

## **Summary of NSW Branch Operations Forum Meeting**

**19 November 2015**

The meeting was attended by industry members from 14 rail transport operators, including rail infrastructure managers, commercial and heritage rolling stock operators, and maintainers and contractors. Representatives from the Office of Transport Safety Investigations (OTSI) and the RTBU were also present.

A presentation was delivered by the ONRSR on the regulatory risk framework.

Key points of discussion included:

- the need to address inconsistencies with the network rules; and
- an update on the development of the Road Rail Vehicle (RRV) Standard.

Members were reminded that NSW drug and alcohol testing authorised person ID cards will begin to expire in 2016. Rail transport operators will be sent details of the renewal process early next year.

Members were also advised that nominations would be called shortly for the 2016-17 membership term of the forum.

The forum next meets on 31 March 2016.
